 soup of the day & complimentary chopsticks

## FUN FACTS about MOMO

- Momos are mostly steamed. The traditional momo steamer is called a mucktoo. We've all seen that metal utensil with holes at the base, right? In many places, bamboo steamers are also used.
- The total calorie in one momo is 35.2 kcal.
- Every shape of a momo has a different name. It is similar to Chinese baozi and jiaozi, Mongolian buuz, Japanese gyoza, Afghan mantu, in Mauritius known simply as dimsum and Korean mandu.
